## ONBOARD ENTERTAINMENT AND CONNECTIVITY

Long-haul passenger  
aircraft Boeing 777-300ER

Aeroflot aspires to make the flight both comfortable and entertaining for its passengers, making use of the latest onboard entertainment technologies and a multifaceted approach to the organisation of passenger leisure activities during the flight.

Aeroflot's in-flight entertainment programme is updated monthly and includes over 200 Russian and foreign movies, TV series and shows, a children's channel, news, sports and automotive programmes, music videos, music, audiobooks and popular games. Passengers can also track the flight in real-time<sup>5</sup> or view images from an external in-flight camera.<sup>6</sup>
